1 Mount the corner posts (part no. 4 only for Maxi height).
Mount 800 and 400mm beams at the top and bottom.

2 Attach the table shelf so that the top of the horizontal
beam is 890mm / 35" from the bottom of the post.

3 Attach the graphic panels and complete your module
by installing the corner trims along both edges above
the table.

Please observe: You can place the table shelf at a different height and make the top panel as big as you wish, but then you must adjust the graphic dimensions and corner trims accordingly!
