## Mounting instruction

1 Attach the holder with the slot connector in the groove at the height desired for mounting the screen.

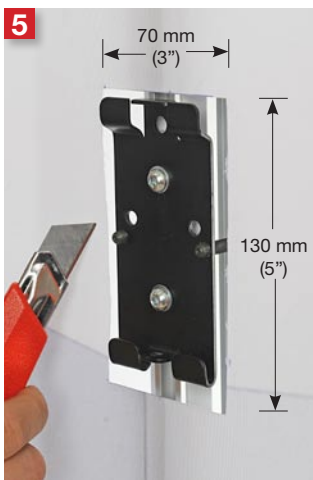

2 Use an allen key to lock in place with the screws.

3 Mount the support post into the frame at the center point of where you plan to mount the screen.

4 Mount the graphic panel.

5 Make a hole in the graphic and one for the cable.

6 Attach the two connection rails to the screen, taking note to properly orient with the top of screen.

7 Hook on the screen at the holder.

8 Lock the screen with an allen key in the rear side!
